Results-driven Front-End Developer who enjoys creating simple, beautiful, and functional websites. Expert knowledge in coding, graphic design, research, teaching, and writing. Proven ability to mix design, technology, and strategy to build compelling websites and useful applications.

Technical Expertise

HTML5, CSS3, JavaScript, Bootstrap, Node.js, MySQL, MongoDB, Express, React, jQuery, API

Education

University of Kansas | Javascript Full Stack Web Development Certificate

University of Kansas | Bachelor of Music Education

Elementary Music, Band, Orchestra, and Choir; GPA 3.6 Earned 20 graduate credits in the education field

Applications Built:

Music Concierge

Front-End Web Developer

<https://jenniferlang1921.github.io/Music-Concierge/>

This website will let the user enter a music artist's name in the search bar and return an artist card, complete with a biography, link to upcoming concerts and their top-viewed video.

Group project: I contributed by drawing a wireframe, task management, youtube API's and jquery.

Technologies Used: jQuery, API keys, bootstrap 4.0

Trivia Game

Front-End Web Developer

<https://jenniferlang1921.github.io/TriviaGame/>

Trivia game about America's favorite foods with timer and giphy pictures.

Technologies used: JavaScript, jQuery, CSS, Bootstrap 4, HTML5, Giphy API, timer

Liri Node App

Back-End Web Developer

<https://github.com/JenniferLang1921/liri-node-app/>

This app takes API's from Spotify, Twitter, and OMDb movies, and runs them with a specific node command.

Technologies used: Node.js, API keys, JavaScript
